

# DEMO CALIBRATION CERTIFICATE

Synthetic LabOS certificate - not valid for real calibration use

|                  |                                   |
|------------------|-----------------------------------|
| Certificate      | CERT-DEMO-TS-01                   |
| Asset            | TS-01 - Thermal Shock Chamber 1   |
| Calibration date | Representative current record     |
| Scope            | Laboratory measurement capability |
| Provider         | Demo Metrology Services           |
| Result           | PASS                              |
| As found         | Within tolerance                  |
| As left          | Within tolerance                  |
| Uncertainty      | Representative demo values only   |

---

## Representative measurement data

Low / Mid / High points: all within representative tolerance

*Synthetic demo document for LabOS Prototype only.*
